June 8, 2022

BEIJING, June 08, 2022 (GLOBE NEWSWIRE) -- Kingsoft Cloud Holdings Limited ("Kingsoft Cloud" or the "Company") (NASDAQ: KC), a leading independent cloud service provider in China, today announced its unaudited financial results for the first quarter ended March 31, 2022.

Mr. Yulin Wang, Chief Executive Officer of Kingsoft Cloud, commented, "Despite the rising uncertainty in the macro-environment and recent pandemic resurgence in China, we adhered to our strategy of pursuing steady and high-quality growth while improving our business stability and profitability. We are pleased to deliver another quarter of solid performance, with revenue up 20% year-over-year and adjusted gross profit increased by 152% quarter-over-quarter to RMB83.6 million. These results further testify to the resilience of our business, our execution capabilities, and the effectiveness of our strategies. During the quarter we continued to deepen our relationships with premium customers and have made excellent progress signing new customers. Specifically, we signed Genki Forest (元气森林), one of the fastest-growing beverage brand in China, and two new commercial bank clients. Looking ahead, while uncertainty remains in the outlook, we will continue to focus on our core cloud services, create value for our customers, and facilitate the digitalization of our expanding customer base."

Mr. Henry He, Chief Financial Officer of Kingsoft Cloud, added, "We are pleased to see that our gross billings from core cloud services, including computing, storage and enterprise services, increased by 61.2% year-over-year. Meanwhile, we have been making significant progress in our cost control strategy and execution. The adjusted gross profit of this quarter increased by 152% quarter-over-quarter to RMB83.6 million. Adjusted gross margin more than tripled, from 1.2% in the previous quarter to 3.8% this quarter. Adjusted EBITDA loss margin narrowed from -10.5% in previous quarter to -7.0% this quarter. We will continue to focus on the quality growth of our business and improve our margins. Even though we are still amid the challenging macro-economic environment, we believe we are on track to achieve adjusted EBITDA breakeven in Q4 2022.

Our board has authorized the Company to repurchase up to USD\$100 million of our ordinary shares in the form of American depository shares during a twelve-month period. Today, we are pleased to announce that we have entered into a share repurchase program. We believe it demonstrates our board's and management's strong confidence in our growth prospect and their commitment to generating long-term value for our shareholders."
