

## Kingsoft Cloud Announces Unaudited Second Quarter 2022 Financial Results

September 6, 2022

BEIJING, Sept. 06, 2022 (GLOBE NEWSWIRE) -- Kingsoft Cloud Holdings Limited ("Kingsoft Cloud" or the "Company") (NASDAQ: KC), a leading independent cloud service provider in China, today announced its unaudited financial results for the second quarter ended June 30, 2022.

Mr. Tao Zou, Chief Executive Officer of Kingsoft Cloud, commented, "Despite the challenging operating environment since the second half of 2021, we see vast and definite opportunities brought about by digital transformation. It is our firm commitment to tackle the challenges and embrace the opportunities head-on with our unique value propositions, including among others, (1) "building a business led by technology" to continuously perfect our scalable core technologies and products; (2) turn-key solution driven sales to offer readily accessible and tangible value of cloud adoption for traditional enterprises in China; and (3) adhering to neutrality and remaining one of the most trusted cloud service provider across industry verticals. We believe, with such value propositions, we will be able to penetrate deep in existing verticals, while tapping into transferrable expertise and Kingsoft and Xiaomi ecosystem, to strategically expand into new industry vertical for sustainable quality growth."

Mr. Henry He, Chief Financial Officer of Kingsoft Cloud, added, "Our total revenues amounted to RMB1,906.5 million in the second quarter of 2022. Among which, revenues from public cloud services amounted to RMB1,289.1 million in the second quarter of 2022. As we continued to proactively scale down our CDN services, its gross billing decreased by 30% year-over-year, while computing and storage services' gross billing increased by 5% year-over-year. Revenues from enterprise cloud services amounted to RMB616.6 million, largely stable year-over-year, as we navigated through challenging operating environment which slowed down bidding and project deployment process during the second quarter. Meanwhile, to drive efficiency, we have executed cost control measures and successfully saved RMB252.6 million in total costs on a sequential basis.

Despite the challenges, we remain confident about our long-term prospect and value. We are pleased to announce that we intend to enter into a repurchase agreement with potential size no more than US\$30 million during a 90 days window, subject to agreements to be finalized with repurchase agent. This action is pursuant to and part of the US\$100 million repurchase program authorized by the board and announced back in March 2022. As usual, the timing, structure and dollar amount of the repurchase will be subject to, among others, the market conditions, terms to be agreed with the relevant repurchase agent, the trading prices of ADSs, and the relevant securities rules and regulations."

### **Second Quarter 2022 Financial Results**

**Total Revenues** reached RMB1,906.5 million (US\$284.6<sup>1</sup> million), representing a decrease of 12.3% from RMB2,173.7 million in the same period of 2021. The decrease was mainly due to our proactive scaling down of CDN services, with its gross billings decreased by 30% on year-over-year basis, as well as the delays to the deployment and bidding process of our enterprise cloud projects mainly caused by the resurgences of COVID-19.

- Revenues from public cloud services decreased by 16.9% to RMB1,289.1 million (US\$192.5 million), compared with RMB1,550.8 million in the same quarter of 2021. The decrease was mainly due to the above-mentioned scaling down of our CDN services, and partially offset by the increase of billings from computing and storage services.
- Revenues from enterprise cloud services were RMB616.6 million (US\$92.0 million), representing a slight decrease of 0.9% from RMB622.1 million in the same quarter of 2021. The slight decrease was mainly due to the difficult operating and market environments as a result of COVID resurgences, which slowed down bidding and project deployment process.
- Other revenues were RMB0.8 million (US\$0.1 million) in the second quarter of 2022.

**Cost of revenues** was RMB1,841.3 million (US\$274.9 million), representing a decrease of 12.1% from RMB2,093.9 million last quarter and a decrease of 10.4% from RMB2,055.2 million in the same quarter of 2021. IDC costs decreased by RMB81.3 million from last quarter to RMB1,029.1 million this quarter, in line with our proactive scale down of our CDN services. Depreciation and amortization costs increased slightly by 1.2% quarter-over-quarter to RMB249.1 million as a result of continued capex. Fulfillment costs decreased from RMB184.5 million last quarter to RMB24.7 million this quarter, mainly due to the slowdown of deployment process as a result of the resurgences of COVID-19. Other costs were RMB48.6 million this quarter.

**Gross profit** was RMB65.2 million (US\$9.7 million), compared with RMB80.0 million last quarter and RMB118.5 million in the same period in 2021.
