

Kingsoft Cloud Announces Unaudited First Quarter 2021 Financial Results

May 18, 2021

BEIJING, May 18, 2021 (GLOBE NEWSWIRE) -- Kingsoft Cloud Holdings Limited ("Kingsoft Cloud" or the "Company") (NASDAQ: KC), a leading independent cloud service provider in China, today announced its unaudited financial results for the first quarter ended March 31, 2021.

First Quarter 2021 Financial Highlights

- Total revenues were RMB1,813.5 million (US\$¹276.8 million) in the first quarter of 2021, compared with RMB1,391.0 million in the first quarter of 2020. Having been increasing for five consecutive quarters, revenues from public cloud services were RMB1,391.8 million (US\$212.4 million), compared with RMB1,208.5 million in the same period of 2020. Revenues from enterprise cloud services were RMB420.0 million (US\$64.1 million), representing an increase of 131.3% from RMB181.6 million in the same period of 2020.
- Gross profit increased by 64.5% to RMB116.5 million (US\$17.8 million) from RMB70.8 million in the same period of 2020. Gross margin was 6.4%, increased from 5.1% in the same period of 2020.
- Non-GAAP gross profit², increased by 64.4% to RMB122.0 million (US\$18.6 million) from RMB74.2 million in the same period of 2020. Non-GAAP gross margin was 6.7%, increased from 5.3% non-GAAP gross margin in the same period of 2020.

Mr. Yulin Wang, Chief Executive Officer of Kingsoft Cloud, commented, "In this quarter, we generated RMB1.81 billion in total revenues, among which public cloud and enterprise cloud accounted for RMB1.39 billion and RMB420.0 million, respectively. In addition to successfully executing our strategy of serving premium customers, we continued to improve our large-scale, highly stable and high-performance enterprise-level products and solutions that cater to growing demand across verticals including the internet, healthcare, financial services and public services sectors.

In April, we published both our first annual report and our first Environmental, Social and Governance (ESG) Report post our IPO. Even though it is not a mandatory disclosure requirement in the US, we took the initiatives to disclose our ESG progress in less than a year after we went public. This speaks to our commitment to integrate ESG practices into our day-to-day business operations, and to constantly improve the management of our business."

Mr. Henry He, Chief Financial Officer of Kingsoft Cloud added that, "We are pleased to see that our products and solutions continued to gain tractions among our customers. Our total revenues were RMB1.81 billion this quarter. Among that, revenues from public cloud services were RMB1.39 billion. Due to our high quality services and robust relations with our premium customers, revenues from public cloud services have been increasing for five consecutive quarters. Our enterprise cloud services revenues were RMB420.0 million, representing an increase of 131.3% year-over-year. We achieved record high quarterly adjusted gross profit of RMB122.0 million in first quarter. Our adjusted gross margin for this quarter increased from 4.9% last quarter to 6.7% this quarter. For the second quarter of 2021, we expect our total revenues to be between RMB2.13 billion and RMB2.23 billion, representing an accelerated year-over-year growth of 39% to 45%."

First quarter 2021 Financial Results

Total Revenues reached RMB1,813.5 million (US\$276.8 million), compared with RMB1,391.0 million in the same period of 2020. The increases were primarily due to the growth in both public cloud services and enterprise cloud services for our premium customers.

- Revenues from public cloud services were RMB1,391.8 million (US\$212.4 million), compared with RMB1,208.5 million in the same period of 2020. Revenues from public cloud services have been increasing for five consecutive quarters.
- Revenues from enterprise cloud services were RMB420.0 million (US\$64.1 million), representing an increase of 131.3% from RMB181.6 million in the same period of 2020.
- Other revenues were RMB1.7 million (US\$0.3 million).

Cost of revenues was RMB1,697.0 million (US\$259.0 million), representing an increase of 28.5% from RMB1,320.2 million in the same period of 2020, primarily attributable to increase in IDC costs and other costs. IDC costs increased by 21.0% to RMB1,113.2 million (US\$169.9 million) from RMB920.2 million in the same period of 2020. The increase in IDC costs was in line with the Company's expanding business and was partially offset by improved efficiency and utilization of bandwidth. Depreciation and amortization costs was RMB174.8 million (US\$26.7 million), compared with RMB204.8 million in the same period of 2020.

Unless otherwise noted, the translation of RMB into US\$ has been made at RMB6.5518 to US\$1.00, the noon buying rate in effect on March 31, 2021 as certified for customs purposes by the Federal Reserve Bank of New York.

² Non-GAAP gross profit is defined as gross profit excluding share-based compensation allocated in the cost of revenues and we define Non-GAAP gross margin as Non-GAAP gross profit as a percentage of revenues. See "Reconciliation of GAAP and Non-GAAP results" set forth at the end of this press release.

Gross profit increased by 64.5% to RMB116.5 million (US\$17.8 million), from RMB70.8 million in the same period in 2020. Gross margin was 6.4%, compared with 5.1% in the same period in 2020.

Non-GAAP gross profit increased by 64.4% to RMB122.0 million (US\$18.6 million), from RMB74.2 million in the same period in 2020. Non-GAAP gross margin was 6.7%, compared with 5.3% in the same period in 2020. The increase was primarily due to our continued leverage on economies of scale, as well as the increasing margin contribution from enterprise cloud.

Selling and marketing expenses were RMB112.8 million (US\$17.2 million), representing an increase of 28.2% from RMB88.0 million in the same period in 2020, mainly due to an increase in share-based compensation expenses and social insurance fees.

General and administrative expenses were RMB91.2 million (US\$13.9 million), an increase of 20.0% from RMB76.0 million in the same period in 2020, mainly due to the increase in share-based compensation expenses, as well as the expenses for legal, accounting and other administrative and compliance affairs.

Research and development expenses were RMB264.6 million (US\$40.4 million), an increase of 35.2% from RMB195.7 million in the same period in 2020, primarily due to the increase in share-based compensation expenses, salaries and social insurance fees.

Operating loss was RMB352.1 million (US\$53.7 million), compared with RMB288.8 million in the same quarter of 2020.

Net loss was RMB382.2 million (US\$58.3 million), compared with RMB331.6 million in the same quarter of 2020.

Non-GAAP net loss was RMB218.4 million (US\$33.3 million), compared with RMB243.4 million in the same quarter of 2020.

Non-GAAP EBITDA was RMB-48.6 million (US\$-7.4 million), compared with RMB-39.4 million in the same quarter of 2020. The decrease of Non-GAAP EBITDA was due to the increase of personnel expenses in terms of social insurance fees. **Non-GAAP EBITDA margin** was -2.7%, compared to -2.8% in the same quarter of 2020.

Basic and diluted net loss per share was RMB0.11 (US\$0.02), compared with RMB0.39 in the same quarter of 2020.

Cash and cash equivalents and short-term investments were RMB5,455.8 million (US\$832.7 million) as of March 31, 2021, compared to RMB6,117.7 million as of December 31, 2020.

Outstanding ordinary shares were 3,349,864,308 as of March 31, 2021, equivalent to about 223,324,287 ADSs

Business Outlook

Use of Non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). In evaluating our business, we consider and use certain non-GAAP measures, Non-GAAP gross (loss) profit, Non-GAAP gross margin, Non-GAAP EBITDA and Non-GAAP EBITDA margin, as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define Non-GAAP gross (loss) profit as gross (loss) profit excluding share-based compensation allocated in the cost of revenues, and we define Non-GAAP gross margin as Non-GAAP gross (loss) profit as a percentage of revenues. We define Non-GAAP net loss as net loss excluding share-based compensation, foreign exchange (gain) loss, changes in fair value of financial instruments and other (income) expense, net. We define Non-GAAP EBITDA as Non-GAAP net loss excluding interest income, interest expense, income tax expense and depreciation and amortization, and we define Non-GAAP EBITDA margin as Non-GAAP EBITDA as a percentage of revenues. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We also believe that the use of these non-GAAP measures facilitates investors' assessment of our operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expense that affect our operations. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling these non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

Exchange Rate Information

This press release contains translations of certain RMB amounts into U.S. dollars at specified rates solely for the convenience of readers. Unless otherwise noted, all translations from RMB to U.S. dollars, in this press release, were made at a rate of RMB6.5518 to US\$1.00, the noon buying rate in effect on March 31, 2021 as certified for customs purposes by the Federal Reserve Bank of New York.
