

Kingsoft Cloud Announces Unaudited Third Quarter 2022 Financial Results

11/23/2022

BEIJING, Nov. 23, 2022 (GLOBE NEWSWIRE) -- Kingsoft Cloud Holdings Limited ("Kingsoft Cloud" or the "Company") (NASDAQ: KC), a leading independent cloud service provider in China, today announced its unaudited financial results for the third quarter ended September 30, 2022.

Mr. Tao Zou, Chief Executive Officer of Kingsoft Cloud, commented, "As we navigated through a challenging operating environment, we remained persistent in enhancing our technologies and products, stayed focused on our core businesses, and continued to strengthen our fundamental capabilities to achieve sustainable, high-quality growth in the long run. Our third quarter total revenues increased to RMB1.97 billion, in line with our guidance, and our gross margin improved from 3.4% last quarter to 6.2%, demonstrating our strong commitment to achieving profitability."

Mr. Henry He, Chief Financial Officer of Kingsoft Cloud, added, "Although we are still implementing our strategic initiatives, including business repositioning and cost control efforts, such adjustments have already yielded positive preliminary results. Third quarter gross profit increased by 38.5% year-over-year and reached RMB122.4 million, and we recorded positive operating cash flow for the last two consecutive quarters, bringing our total cash reserve to a strong and sustainable level of RMB5,328.9 million (US\$749.1 million). We believe the ongoing strategic initiatives will propel the sustainable, long-term development of the Company. Meanwhile, as we previously announced, we had duly repurchased our ADSs in the last quarter. Going forward, supported by our ample cash reserve, we expect to continue to execute from time to time under the US\$100 million, 12-month period repurchase program mandated by the Board. These efforts fully demonstrate our Board and management's strong commitment and confidence in the long-term business prospects of the Company, as we strive to reward our shareholders for their support, and believe our share price will eventually reflect the Company's true value."

Third Quarter 2022 Financial Results

Total Revenues reached RMB1,968.8 million (US\$276.8¹ million), in line with our guidance, a decrease of 18.4% from RMB2,413.8 million in the same period of 2021, but increased steadily quarter-over-quarter. The decrease was mainly due to our proactive scaling down of CDN services, with its gross billings decreased by 27.6% on year-over-year basis, the impact of the resurgence of COVID-19, as well as more stringent project selection of enterprise cloud services.

- Revenues from public cloud services decreased by 20.2% to RMB1,346.0 million (US\$189.2 million), compared with RMB1,686.0 million in the same quarter of 2021. The decrease was mainly due to the above-mentioned scaling down of our CDN services.
- Revenues from enterprise cloud services were RMB622.0 million (US\$87.5 million), representing a decrease of 14.4% from RMB726.9 million in the same quarter of 2021. The decrease was mainly due to the impact of the resurgence of COVID-19, as well as more stringent project selection.

Depreciation and amortization costs increased by 26.9% from RMB200.0 million to RMB253.7 million. Solution development and services costs increased from RMB160.0 million to RMB443.1 million this quarter, the increase was mainly due to the consolidation of Camelot since September last year. Fulfillment costs and other costs were RMB31.9 million and RMB39.3 million this quarter.

Gross profit was RMB122.4 million (US\$17.2 million), significantly increased by 38.5% from RMB88.4 million in the same period in 2021. **Gross margin** was 6.2%, compared with 3.7% in the same period in 2021. **Non-GAAP gross profit**² was RMB124.7 million (US\$17.5 million), compared with RMB92.2 million in the same period in 2021. **Non-GAAP gross margin**² was 6.3%, compared with 3.8% in the same period in 2021. The solid improvement of our gross margin was mainly due to our strategic adjustment of revenue mix and efficient cost control measures.

The year-over-year increase of net loss was mainly due to the significant depreciation of RMB against USD, resulting in a foreign exchange loss of RMB218.9 million this quarter, which is a non-cash item.

Non-GAAP net loss was RMB487.4 million (US\$68.5 million), compared with net loss of RMB451.7 million last quarter and RMB363.7 million in the

Use of Non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). In evaluating our business, we consider and use certain non-GAAP measures, Non-GAAP gross profit, Non-GAAP gross margin, Non-GAAP EBITDA, Non-GAAP EBITDA margin, Non-GAAP net loss and Non-GAAP net loss margin, as supplemental measures to review and assess our operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define Non-GAAP gross profit as gross profit excluding share-based compensation allocated in the cost of revenues, and we define Non-GAAP gross margin as Non-GAAP gross profit as a percentage of revenues. We define Non-GAAP net loss as net loss excluding share-based compensation, foreign exchange (gain) loss, other gain, net and other (income) expense, net, and we define Non-GAAP net loss margin as adjusted net loss as a percentage of revenues. We define Non-GAAP EBITDA as Non-GAAP net loss excluding interest income, interest expense, income tax expense and depreciation and amortization, and we define Non-GAAP EBITDA margin as Non-GAAP EBITDA as a percentage of revenues. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We also believe that the use of these non-GAAP measures facilitates investors' assessment of our operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expense that affect our operations. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling these non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.
